Hardscape Specialist

Description

At Global, we understand the importance of maintaining a well-trained and highly-equipped team. We're not interested in hiring large numbers of unskilled laborers who won't stick around for long. Instead, we're looking for dedicated, talented workers who want to build a long-term career. We uphold a culture of acceptance and respect for all employees. Plus, we offer our team members great wages and excellent benefits. Join us and grow a future you can be proud of!

We are looking for a very gifted and professional stone mason/hardscape specialist that is well rounded in all masonry applications with a minimum of 3-years' experience. Must have the desire and more importantly the passion to create true beauty in outdoor environments.

The scope of work includes but is not limited to all types of hardscapes, patios, stone walls, retaining walls, wet-laid and dry laid stone, fireplaces, fire pits, outdoor kitchens, stone veneer, water features, fire features, paver pool decks, coping, walkways, driveways, etc. Must be able to demonstrate competence and efficiency on the job.

Responsibilities

- Layout work area
- Reading and interpreting plans, including grades and site elevations
- Installing rebar and reinforcing wire per plan and specifications
- Forming, pouring, and leveling footers and small concrete slabs
- Operating a variety of landscape construction equipment such as: skid steer loader, small track machine, wet saws, dry cut saws, chop saw/grinder, compactor, etc.
- Coordinating with Field Operations Supervisor on new projects to determine scope of work, equipment, and material needs
- Ensure company policies, procedures, and safety protocols are being followed at all times
- Ensure quality control over all work being installed
- Ensure jobsites are left clean and organized at the end of each day
- Complete daily job forms and timecard punches

Qualifications

- 3-5 years installation experience in landscape construction/hardscape working with natural stone and concrete to create patios, walls, and outdoor kitchen areas
- Experience installing accessory items such as grills, doors, fire logs, benches, trash cans, bike racks, etc.
- Experience assembling and installing wood trellises and gazebos
- Experience operating saws and other tools necessary to complete hardscape installation
- Experience setting precast and natural stone
- Ability to read blueprints and landscape plans and complete the layout of
