Landscaping Specialist

Description

Our company's history of providing exceptional landscaping services dates all the way back to 1980. Back then, we were just one employee taking care of residential lawns. From these humble beginnings, we've grown into a commercial & residential landscaping construction powerhouse that can handle any design / build size project. We completed our first large-scale commercial landscape job in 1993 and haven't looked back since. Over the years, we've successfully completed numerous commercial projects for locations such as major shopping malls, retail centers, athletic fields, military installations, and housing developments. No matter the size or scope of the project, we strive to produce exceptional results either on or ahead of schedule.

At Global, we understand the importance of maintaining a well-trained and highly-equipped team. We're not interested in hiring large numbers of unskilled laborers who won't stick around for long. Instead, we're looking for dedicated, talented workers who want to build a long-term career. We uphold a culture of acceptance and respect for all employees. Plus, we offer our team members great wages and excellent benefits. Join us and grow a future you can be proud of!

If you are truly eager to embark on an extraordinary journey with Global World Design then waste no time and submit your resume today!
